THE INTERNSHIP

Selection Process

- i) Applied on naukri.com.
- ii) After one week I got a call from Hiring manager of Gromax Technologies for an interview.
- iii) After the completion of round, I got a call from him and I was selected for web designer role.
- iv) One day later, I received offer letter from Gromax Technologies.

Job Profile

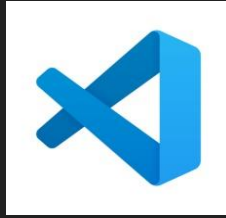

I was hired by Gromax Technologies for the position of the Web Designer. The job has the following duties:

- 1. Designing responsive landing pages.
- 2. Testing and improving the overall design of the website.
- 3. Maintaining the appearance of websites by enforcing content standards specified by the company.
- 4. Designing interactive web page, including interactive colors and fonts.
- 5. Creating web designs with the help of web designing languages like HTML, CSS and JavaScript.

Work Environment

The COVID-19 pandemic rendered an on-site internship impossible, so the internship was conducted in a virtual format. I worked from home through my laptop. Throughout the internship the work environment remained collaborative and enjoyable. With extremely helpful mentors and interesting work job, the summer internship was a great experience.

TECHNICAL SKILLS LEARNT

WEEKLY TIMELINE

LEARNINGS FROM INTERNSHIP

I learnt a lot of things during this 2 month internship period. These included both technical and non technical skills which I will stay with me throughout my life. Some of the technical skills acquired during the internship are:

Technical Skills:

- i) HTML and CSS
- ii) JavaScript and JQuery
- iii) Bootstrap: Designing a good UI
- iv) Code formatting and shortcuts
- v) Debugging of code.

Apart from the technical skills I learnt some interpersonal skills as well which helped me in improving my personality.

Interpersonal Skills:

- i) Confidence
- ii) Public speaking
- iii) Analytical and decision making
- iv) Pressure handling.

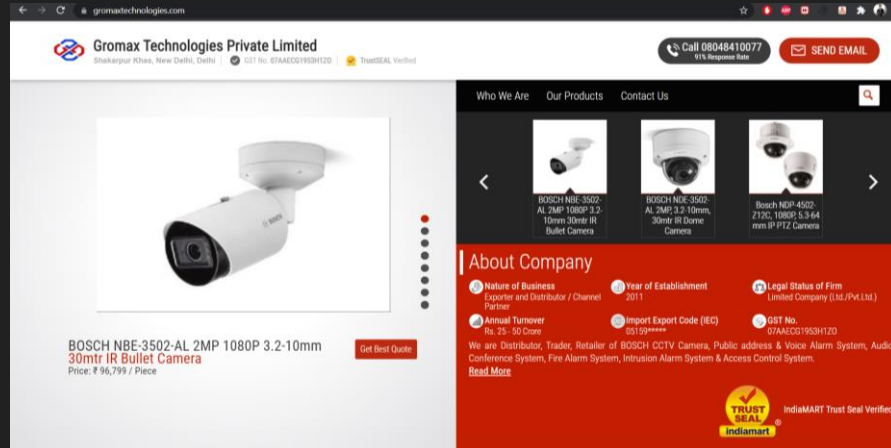

I gained enough experience during the internship which I can reflect on my full time job whenever I joined. **So in a nutshell this internship has taught me a lot of things which would help me both technically and personally to grow as a Web Developer.**
